Food Drive Update

Happy Fall! Cider, pumpkins, football, beautiful sunsets...I hope you can take some time to enjoy some of the simple pleasures and beautiful sights of God's great creation. As we enter the season of Thanksgiving, I count our Sunday school class and each one in it among the many blessings God has given me!

The food drive was a HUGE success! We received so many donations and we came up with many encouraging bible verses to label the food with. We thank all the families for helping and the greatest thing is, we are serving God by giving his people much needed help! The kids did a great job and really stepped up to the challenge! Oh by the way, WE WON!!!

BIRTHDAYS! Happy Belated to Tom Banninga (October) and Happy Birthday this month to Alex Wenzlick and Haley Tanner! If I don't have yours, I need it!

What's been going on....

We continue to study in the old testament where we looked at Joseph, his dreams and his gift of interpretation of dreams. It set the stage for our discovery that we each possess certain gifts that are God-given and can be used in our own lives to serve Him. We did a service survey to help us see the possibilities of where and when we could use those gifts, in some of the most simplest of ways.

From Joseph we went to Moses and the ten commandments. A star-studded cast performed a drama that portrayed the dramatic story of Moses' long journey to speak with God on the mountain and receive both the bad news of his people's lack of faith and the subsequent basic rules for their guidance to live a godly life. We had a good time reading through the play and I think we have many new contestants for the academy awards! Our highlight was the God Box! Ask your teen about it!

Coming up!!!! Joshua, Gideon, Saul's Impatience and David the King to name just a few lessons. Also, in preparation for Christmas, we will begin working with our handbells the week of November 8 and continue through the month. This is our portion of the Sunday School Christmas program so please attend as often as possible to practice. We are planning more service opportunities including the traditional decorating and packaging of Christmas cookies for our shut-ins. Stay Tuned.....
